

Cyclone® FLEX™ Condensing Commercial Gas Water Heater with Adaptive Gas Technology

- **ENERGY STAR® certified—95% or greater efficiency, reducing energy costs and maximizing performance**
- **Adaptive Gas Control System—Automatically adjusts to fuel qualities and abnormalities**
- **Intelligent Control System—Features a 7-inch color touch display with iCOMM™ connectivity for remote monitoring and precise temperature control**

60 Gallon 100,000, 120,000 or 145,000 BTUs

100 Gallon 150,000, 199,000 or 250,000 BTUs

119 Gallon 251,000, 300,000, 400,000 or 500,000 BTUs

Converted in our warehouse to the BTU and either natural or LP gas.

Rinnai

Unsurpassed first-hour delivery and efficient recovery keep pace with the demands of any business while consistently producing more hot water than a traditional tank

Demand Duo® H-Series

Rinnai

No matter your industry, Demand Duo® can meet the demand, with first-hour delivery of 546 gallons and 463 GPH recovery (at 100° ΔT).

Demand Duo® 2V

Rinnai

CX models offer unsurpassed efficiency and energy savings with 97% thermal efficiency* and are Ultra Low NOx compliance *Not AHRI certified

CX Models

Rinnai

Built with superior quality and reliability, Rinnai's tankless rack systems offer the perfect BTU upgrade for older domestic boiler units that require reheating storage tanks.

Navien

Navien is now the #1 manufacturer of all gas tankless water heaters (condensing and non-condensing) in North America*

NPE-A2 Advanced

Navien
