

Your Local Source for Commercial, Residential & Service Plumbing Solutions

Water Softeners • Filtration • Conditioning • UV • Reverse Osmosis

Complete Water Conditioning & Filtration — Stocked Locally

Halo Hybrid

A whole-house water conditioning system that combines advanced scale prevention with carbon filtration to reduce chlorine, odors, and contaminants while protecting plumbing and fixtures.

Halo 5

A comprehensive whole-house filtration and conditioning system designed to reduce chlorine, chemicals, sediment, and scale while improving taste and odor. Protects plumbing and appliances with long-lasting, low-maintenance performance.

Halo H2O Ultimate

A premium whole-house filtration and conditioning system that reduces chlorine, chloramines, sediment, and scale. Enhances water clarity, taste, and odor while protecting fixtures and appliances — no salt or electricity required.

Halo ION

A salt-free water conditioning system using advanced crystallization technology to prevent scale buildup while preserving beneficial minerals. No backwashing, electricity, or ongoing maintenance required.

Halo Ultra Plus RO

A high-performance reverse osmosis system delivering purified drinking water by reducing dissolved solids and contaminants. Ideal for under-sink installation with multi-stage filtration and long filter life.

Halo UV Light System

Provides chemical-free disinfection using ultraviolet technology to neutralize bacteria and microorganisms. Integrates seamlessly with whole-house systems for continuous water protection.

NORTH STAR™
WATER TREATMENT SYSTEMS

Water Softener and Whole Home Filtration

North Star NSCWHC 2-in-1 Water Softener & Filter (Wi-Fi Compatible)

2-in-1 system that combines water softening and whole-house filtration in one compact unit, reducing hardness minerals, chlorine, and sediment. Wi-Fi compatibility..

North Star NSCWC 2-in-1 Water Softener & Filter

. 2-in-1 system that combines water softening and whole-house filtration in one compact unit, reducing hardness minerals, chlorine, and sediment.

North Star NST Series Water Softeners

NSC Series water softeners are designed to efficiently remove hardness minerals that cause scale buildup, spotting, and reduced appliance performance

North Star NSC Series Water Softeners

NSC Series water softeners are designed to efficiently remove hardness minerals that cause scale buildup, spotting, and reduced appliance performance.
